

Financial Management

Most American families do not have the necessary skills to manage their finances.

Extension Family and Consumer Sciences (FCS) Educators provide training and support in the areas of financial literacy, personal financial management, resource management, and general economic well-being that address these issues.

ESTATE, LEGACY, CREDIT COUNSELING

Resources created for understanding credit, beneficiary designations; and bankruptcy counseling education through classes, websites, emails, media and exhibits.

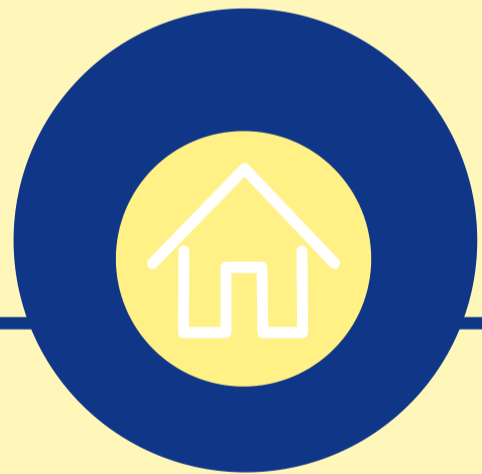

BASIC FINANCIAL MANAGEMENT

Spending assessment education assisted in budgeting practices to increase responsible money management practices. Counseled to help get taxes current and seek affordable payments.

MONEY MANAGEMENT

Courses increased knowledge of financial terms, informed personal finance, and financial decisions.

HOME BUYING

Participants from 42 states completed an online class through USDA Rural housing.
