

Impact 2020

Improving Children's Lives

Through Extension programs across the nation, Family and Consumer Sciences (FCS) Extension Educators provide a multitude of Educational opportunities to meet the needs of diverse audiences.

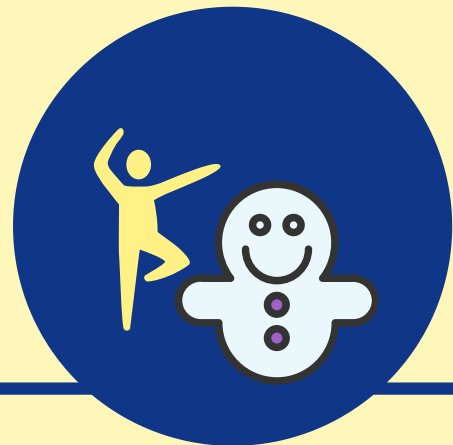

CHILDREN

Dental education and fluoride programs to protect children from dental decay.

Healthy romantic relationship classes with preparation for transition into adulthood with career and employment counsel.

Handwashing, chances to try new fruits and vegetables, reading programs and STEM programs.

DAYCARE PROVIDERS/TEACHERS/ SCHOOL FOOD SERVICE STAFF/ OTHER PROFESSIONALS

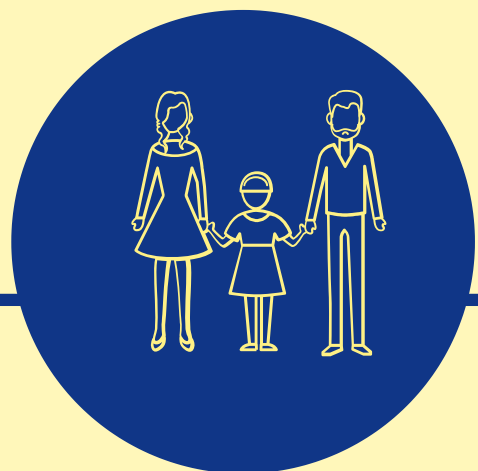

Coached techniques to support a child's learning.

Intergenerational hands-on activities. Yoga program for youth to encourage fun exercise.

DAYCARE PROVIDERS/TEACHERS/ SCHOOL FOOD SERVICE STAFF/OTHER PROFESSIONALS

Car seat checkup events conducted in rural areas to educate proper usage. Workshops designed and presented to provide an overview of the five Protective Factors professionals can use with families.

PARENTS/GRANDPARENTS/ FAMILIES

A nutrition curriculum targeted children to request healthful snacks and tried new foods. Healthy lifestyle campaign to parents and care providers of young children and Co-parenting education via text messages to learn new skills.
